# SLIDE 1: Vision / Category Definition

**Core Investor Message:** Establish a fundamentally new enterprise category: the era of completely autonomous, fully integrated digital workers.

## VISUAL BLUEPRINT & WIREFRAME LAYOUT

Clean, minimalist dark mode container interface. Central bold headline with large font spacing. Sub-text aligned to left. Bottom bar listing premium venture capital logos.

## ON-SLIDE COPY & TYPOGRAPHY ELEMENTS

Headline: The Age of AI Employees Has Arrived.

Sub-headline: Artisan builds fully autonomous digital workers that seamlessly integrate into existing enterprise workflows, starting with sales demand generation.

Footnote: Backed by Glade Brook Capital, Sequoia Scout, and Y Combinator.

| **Category Paradigm** | **AI Employees (Artisans) vs Old Generative Copilots** |

# SLIDE 2: The Market Pain Point

**Core Investor Message:** Modern enterprises are bleeding margins on an disjointed, uninspired tech stack and human bottlenecks.

## VISUAL BLUEPRINT & WIREFRAME LAYOUT

A 3-column structured grid layout. Each column represents a critical fracture point in current SaaS economics. Red accented labels.

## ON-SLIDE COPY & TYPOGRAPHY ELEMENTS

Column 1: Fragmented SaaS Tools - Mid-market teams manage 12+ separate point solutions just to execute a single outbound pipeline sequence.

Column 2: Human Interventions - Over 70% of employee hours are wasted on data-entry, scraping, and routine CRM maintenance instead of actual closing.

Column 3: Exploding Seat Costs - Current seats cost thousands annually, yet output remains bounded by human labor limits.

## HIGH-IMPACT DATA CALLOUTS (LARGE FONT ELEMENTS)

| | |
|---|---|
| **Wasted Human Effort** | **72% of time spent on non-revenue generation tasks.** |

# SLIDE 3: The Solution: Ava, The AI SDR

**Core Investor Message:** Introduce the first out-of-the-box autonomous agent that handles the entire outbound funnel seamlessly.

## VISUAL BLUEPRINT & WIREFRAME LAYOUT

A split-screen layout. Left side shows an intuitive workspace interface screenshot of 'Ava'. Right side lists core processing loops.

## ON-SLIDE COPY & TYPOGRAPHY ELEMENTS

Left Header: Meet Ava - Your Autonomous Outbound Artisan.

Bullet 1: Lead Prospecting - Deep hyper-personalized discovery across 30+ B2B data signals concurrently.

Bullet 2: Dynamic Copywriting - Crafts custom, context-aware email frameworks without rigid, identifiable templates.

Bullet 3: Multi-channel Sequences - Automatically schedules, tests, and adjusts delivery times via email and LinkedIn networks.

| **Deployment Speed** | **< 10 Minutes from onboarding to live execution.** |

# SLIDE 4: The Traction Layer

**Core Investor Message:** Demonstrate hyper-growth velocity that justifies a premium Series A valuation.

## VISUAL BLUEPRINT & WIREFRAME LAYOUT

Dominant upward-trending bar chart tracking Annual Recurring Revenue (ARR). Clean line marker for the Series A inflection point.

## ON-SLIDE COPY & TYPOGRAPHY ELEMENTS

Main Title: Exponential Scaling to $5M ARR.

- ARR Velocity: Scaled rapidly from Seed to $5,000,000 current run-rate.
- Customer Footprint: 250+ active global enterprise and high-growth technology corporations.
- Net Revenue Retention (NRR): Outstanding retention proving core platform utility and seats expansion.

## HIGH-IMPACT DATA CALLOUTS (LARGE FONT ELEMENTS)

| | |
|---|---|
| **Current ARR** | **$5,000,000 ARR** |
| **Net Revenue Retention** | **138% NRR** |

# SLIDE 5: The Monetization Wedge (The Killer Slide)

**Core Investor Message:** Artisan expands contract value by capturing human wages and replacing whole tool stacks, rather than pricing per seat.

## VISUAL BLUEPRINT & WIREFRAME LAYOUT

A progressive stack diagram showing how pricing evolves from a tool fee to a full human-equivalent ROI model.

## ON-SLIDE COPY & TYPOGRAPHY ELEMENTS

Header: Capturing the Full Value Stack.

Traditional SaaS Model: Low cap pricing based strictly on administrative seat license fees ($80-$120/mo).

The Artisan Displacement Edge: We charge a premium tier based on replacing the combined cost of point tools (Apollo, Hubspot, Outreach) AND a portion of labor overhead.

Result: 10x higher ACV (Annual Contract Value) while delivering a clear 5x net ROI to the enterprise CFO.

## HIGH-IMPACT DATA CALLOUTS (LARGE FONT ELEMENTS)
